Divide and Analyse: Understanding analytical instrumentation

A professional learning session for ATAR chemistry teachers

Are you a chemistry teacher with year 11 or 12 ATAR students? **Divide and Analyse** is a half day event that explores isotopes, intermolecular forces and electrons in the context of mass spectrometry, chromatography and atomic absorption spectroscopy. Teachers participate in three workshop sessions combining both theoretical knowledge and practical experience with the instruments. Workshops are led by Murdoch University's chemistry academics with a strong background in both teaching and research.

Date: Thursday 13 February 2020
Time: 2:00pm-5:30pm
Cost: \$40.00 per person
Venue: Murdoch University, South Street Campus
Places are limited.
